

HAIR NECESSITIES

BOTANICAL EXTRACT SHAMPOO

Invison's™ new "Triple Molecular Adhesion" process now makes treating the hair from the inside out possible! The sub-organic micron particle ingredients in our extraordinary formula combine with our proprietary processing method to rejuvenate not only the hair follicle, but also the hair shaft. With our exclusive, plant-derived, colloidal copper-enhanced formula, your hair looks and feels fantastic and you can finally be assured of receiving vital vitamins and minerals necessary for strong, healthy, and vibrant hair.
